PROFESSIONAL SUMMARY

BSIT (AI) graduate with hands-on experience in cybersecurity and full-stack web development (Laravel/React/MySQL) plus small-team project management. Built SETUP-RMS, ItechPlus (DOST–Wadhvani), and an Autoshop POS (~40% efficiency gain). Skilled in secure coding, basic firewall setup, Git/Docker, and end-to-end delivery.

CORE SKILLS

- **Programming Languages:** HTML, CSS, JavaScript, React, PHP, Laravel, Python, Next.js, SQL
- **Cybersecurity:** SIEM exposure, firewall configuration, secure web practices
- **Tools:** Git/GitHub, Docker (basic), Linux/Windows deployment.

PROFESSIONAL EXPERIENCE

On the Job Training

Feb 2025 – May 2025

Department Of Science and Technology, Tuguegarao City

- Built SETUP-RMS to track financial records for the SETUP Program (Laravel/PHP, MySQL).
- Developed ItechPlus, a research e-commerce portal with Admin/Seller & Buyer roles, listings, discovery, request-to-purchase, and in-app messaging (Laravel/MySQL).
- Provided L1 end-user support for software and basic hardware issues.

Full Stack Developer & IT Support

Jan 2025 – Jul 2025

AZ AUTO ZOLUTION, Tuguegarao City

- Developed an Autoshop System with POS, inventory, and analytics (Laravel/MySQL); improved transaction and inventory handling by ~40%.
- Deployed and maintained the app on a local server; performed PC/software maintenance and routine troubleshooting.

Developer & Owner

Sept 2024 – Sept 2025

Obratech Software Development Services – Lal-lo, Cagayan

- Managed and delivered 4 client software projects: web apps and Python machine-learning solutions.
- Fabricated research prototypes using Arduino/ESP and 3D-printed parts.
